May 2025

*Bachelor of Engineering in Information Technology*

*Mumbai, India*

- Selected coursework: Object Oriented Programming, Web dev., DBMS, Computer Networks, Operating Systems, Data Structures, Artificial intelligence & data science.

### Shubham Raje Jr. College – Maharashtra Board for Higher Secondary Education

May 2021

*High School (92.4 percentage)*

*Mumbai, India*

- Clubs: Athletics - District level, Chess, Environment Club, Asst. Monitor.

## PROJECTS

### MnemonicsAi | *NextJs* | [Visit website](#)

- Converted an age old concept of memorizing complex list of words with mnemonics into a website.
- Generates unlimited free mnemonics that serves as a memory aid. The Gemini API is fine-tuned with two-shot prompts to deliver more accurate results.
- Gained 10+ daily users with no marketing budget, launched on tinylaun.ch, and secured the #2 spot for the day.

### SoBoards | *Nextjs* | [Visit Website](#)

- Provides website designing, creation and sales services to outdoor advertising agencies in Mumbai. Helped 5+ agencies.
- Case study blogs featuring various brands that have crafted their brand story through outdoor advertising. The blog section is powered by Sanity.io and attracts over 3+ daily readers.
- The previous version included an eCommerce platform for the billboard system.

## LEADERSHIP EXPERIENCE / Extra-Curricular

### Google developer students club - Core Team

*Member*

- As a member of this club, I was responsible for managing tasks, assisting with documentation, and delivering technical talks. Along with another member, I presented a technical talk on Git and GitHub to an audience of 60+ participants.

### Hackathon

*Frontend*

- I participated in 3 hackathons, with my team of four finishing as runner-up in one. We developed a website that generates random motivational and feel-good videos, integrating the YouTube API to promote less reliance on short-form content. I was responsible for the frontend development.

### Open-source

*Moja-Global*

- Frequently contributing in documentation for better understanding of their tools. This initiative facilitated increased participation from open-source contributors.
- Created 4 personal technical articles at hashnode with 236 total page views.

## SKILLS

**Web:** React.js, Express.js, HTML, CSS, JS, TS    **Languages:** JavaScript, Typescript

**Databases:** MySQL

**Tools and platforms:** Git, GitHub, AWS EKS, Docker

## INTERESTS

I'm passionate about using software to tackle real-world challenges, and I believe that bringing traditional concepts to life with innovative solutions can make a real impact on communities. I have a strong interest in entrepreneurship and enjoy diving into the operations and strategy of unique startups. Outside of work, I like playing sports, particularly badminton and basketball.
